CHICKERING & SONS,
PIANOFORTES.

THE subscribers take pleasure in informing the public that they have been appointed **Sole Agents for these Celebrated Instruments for the State of Rhode Island,** and they would invite special notice to their intention of offering for sale at their NEW WAREROOMS a larger and more complete stock of Grands, Uprights and Squares, made by this Celebrated Firm, than has previously been exhibited in this city.

The subscribers have been conscious of the extraordinary merits and sterling qualities of the CHICKERING PIANOS for many years. This has resulted from a large experience in the sale of Pianos, many of which were from the best makers in the country and a careful observation of the various points of excellence attained by each particular maker, together with the opportunities afforded from their close connection with the Musical World, of hearing the most unanimous opinions of the greatest artists in favor of the Chickering Piano, and duality upon witnessing the last and crowning triumph at the recent Paris Exposition over all the most celebrated makers in the world. The peculiar points of superiority to be found in the **Chickering Pianos** have been so frequently and minutely retailed by the Press that we do not consider it necessary in the Card to comment farther upon them. We shall keep in connection with the above, a choice assortment of PIANOS from good and reliable makers at a lower price.

SOLICITOR OF PATENTS,
Late Agent of the United States Patent Office, Washington, under the Act of 1837.
No. 78 State St., opp. Kilby St., Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor* by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse.
CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending.* Such unmistakable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

Read what the great paper of the Northwest, the *Toledo Blade* (Nasby's paper), says of us:—

"WHAT WE SAW AT THE HUB.—Curiosity led us, while recently in Boston, to visit the dollar establishment of Messrs. EASTMAN & KENDALL. Their trade has become so immense that they now occupy four stories in the elegant block No. 65 Hanover St. The name of this firm has become as 'familiar as household words' throughout the Middle and Western States, while as prompt and honorable business men they are endorsed by the best firms in their own city. Their Club system of selling goods has done more, we believe, during the past few years to keep down the prices of domestic articles in every day use, than all other influences combined. Most of their goods are manufactured expressly for them, as, for instance, cutlery made to their order in Sheffield, England, and imported in large quantities for their dollar trade alone."

Now is the time to get signers and send in clubs.

Ladies specially wanted as Agents.

Partial list of articles allowed as commission to any one sending a club.

be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines by THE DEAD, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, ALAS! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will even perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

NEWPORT DAILY NEWS.

TUESDAY, January 19, 1869.

Political.

His Excellency Governor Burnside has written a note to the chairman of the Republican State Committee declining under any circumstances to be a candidate for re-election. This decision on his part has been anticipated for some time, but the way has not been opened for aspirants to the place until now. It is already evident that there is to be something of a contest for the nomination, as several candidates are already in the field. We trust we shall be able to secure as honest and faithful an officer as Gen. Burnside has been.

Senatorial Contests.

In New York, Maine and some other States there has been for some time past a sharp contest for senatorial honors. In most of these cases the question has now been decided and the candidates agreed upon. In New York Mr. Fenton has succeeded over Mr. Morgan, the present able and reliable Senator, after one of the severest struggles ever known in the party. The point to which we wish to call especial attention is that as soon as the result was ascertained, Mr. Morgan with the true instincts of a gentleman, called upon his successful opponent and congratulated him on the result. So in Maine, Mr. Morril the present incumbent gracefully yields to Mr. Hamlin, and wins for himself new laurels in the manner in which he takes his defeat. The newspapers have been filled with sensational reports concerning bribery and corruption on the parts of these men, but we are led to believe that there is little or no truth in them. It has become the fashion of late to charge every public man with corruption and drunkenness and we should be surprised to read the "special correspondence" of some of the metropolitan Journals for a single day, if we were not to meet with it. Neither Morril, Hamlin, Morgan or Fenton are men of this class, and though each has made a good fight, we have seen nothing that reflects upon their personal character or habits. Let us give honor to whom honor is due.

Senator Fenton.

The New York *Tribune* describes Reuben E. Fenton, as native and lifelong resident of the Country of Chautauque, who grew up a Democrat in that intensely Whig community, and hence, though an active politician, was never a candidate for office, or was but formally one, until the year 1852, when every one else was astonished, if he was not, by his election as Representative in Congress over an unpopular Whig candidate, by a majority of 86. Taking his seat as a new Member in that Congress through which Senator Douglas drove his Nebraska bill, Mr. Fenton, with Col. Benton, Nath'l P. Banks, and other lifelong Democrats, took ground decidedly against it, and fought it out on that line, which brought the most of them naturally into the new organization known as the Republican party, Mr. Fenton was nominated by this new party in 1854, when the Know-Nothing Simeon swept over his district; but he was again chosen their standard-bearer by the Republicans in 1856, and triumphantly re-elected, as he was at each subsequent choice of a Representative in Congress down to that of 1862.

Gov. Fenton will enter the Senate on the 4th of March next, an earnest supporter of the Administration of Gen. Grant, and a consistent, determined champion of honesty in dealing with the National creditors; of frugality and retrenchment in public expenditures; and of the sternest and most summary justice to those, whether in or out of office, who are defrauding the Revenue of Millions, and thus giving countenance to the more or less specious contrivances for effecting a virtual Repudiation of the National Debt. We trust many who have opposed his election will be more than satisfied with his course as a senator.

UNITED STATES SENATORS.—The republicans of the New York legislature, at a caucus held on Saturday, nominated Reuben E. Fenton for United States Senator, by 62 votes, against forty for E. D. Morgan. In Maine, Mr. Morril has published a card withdrawing his name from the contest with Mr. Hamlin, which leaves the field clear for the latter. A caucus of the Nebraska legislature, recently held, failed to nominate a candidate for United States Senator, but Mr. Tipton the present Senator, received the highest number of votes.

The N. Y. Times says that it has no expectation of seeing any comprehensive financial scheme passed into law by the present Congress. The dozen financial measures that have been introduced to the Senate and House, from those of Senators Morton, and Sumner to that of Mr. Butler, have all been appropriately referred to the Committees, and there is no probability of a satisfactory bill being reported to either House in season to have it discussed and passed during the few weeks that remain of the session. The only financial policy for which we will be indepted to the present Congress will be that advocated by Mr. Opdyke, "masterly inactivity."—or, more properly speaking, *masterly imbecility.*

The Mount Hope Iron Works of Somerset, Mass., manufacture about 40 tons of finished plate iron, and 20 tons of nails per day. About 5,000 tons of iron, 8,000 tons of coal, and 700 tons of ore are annually consumed. The works employ about 250 men and the business of the company is about $500,000 per annum. The capital invested is about $300,000. The four largest stockholders in the corporation are Albert Field and Geo. A. Field of Taunton, J. M. Leonard of Somerset, and John W. Quincy of New York city. The large engine is a model machine for simplicity, strength and durability, and is from the Hope Iron Works of Providence.

STEAMERS.—The Providence Herald learns that there was a rumor that Mr. J. Fiske, Jr., has purchased the Norwich line of steamers or leased them for thirty-nine years.

A number of other passengers were cut and bruised slightly.

The ringing sentences of Gen. Sheridan tell the story of how he has fought to an end the Indian campaign. We are yet without full particulars of its closing scenes; but enough is known to warrant congratulations on the conclusion of a war that threatened to be long, bloody, and expensive. Once more the hero of Cedar Creek and Dinwiddie and Five Forks has deserved well of the country.

THE END OF THE WORLD.—At a conference of the Second Adventists of Massachusetts, held at Springfield last week, a resolution was adopted discountenancing the preaching of distinctive doctrines. The vote was nearly unanimous. The resolution is aimed against teaching the exact date of the final end of all things. The laity are represented as generally in favor of taking such a stand. And thus William Miller's doctrines have been exploded by his nominal followers.

About Home.

STATION HOUSE.—Two persons, one a soldier and an old acquaintance and frequenter of this institution, were committed to the Station House last night.

JUDICIAL.—The court of Common Pleas, Judge Potter presiding, is in session at the State House to-day. The Court was occupied this morning with some naturalization cases.

CATHOLIC SERVICE.—We hear that very interesting and imposing services are to be held at the Catholic Church to-morrow, at which several Bishops and 100 Priests are to be present, but are without further particulars.

RELIGIOUS.—There will be preaching at the Thames street Church this evening by Rev. Mr. Bray of Centerville. Mr. B. is a very successful laboror in revivals, and his services have been engaged for the week. The meetings at the Marlboro' street church are also continued.

EDWIN FORREST.—The appearance of this eminent actor at Shanahan's Opera House last night was quite an event in dramatic circles in Newport, as such men do not often come to the smaller towns. He was greeted with a good house, and won golden opinions from all who heard him. Mr. Forrest has been so long known that he scarcely needs praise or further introduction than the bare announcement of his advent. He will appear again this evening.

PUTNAM'S Monthly Magazine for February is received in good time. It has valuable papers from our friend, H. T. Tuckerman, from C. C. P. Clarke, Leonard Kip, F. G. Gedney, Bayard Taylor, S. S. Conant, Sinclair Tousey and other writers of equal ability. Putnam is not surpassed in value by any monthly of its class, and we are always happy to recommend it to our readers.

LITTELL'S LIVING AGE comes to us regularly and maintains its ancient reputation as a reprint of the best literature of the old world.

"ONWARD," Capt Mayne Reid's new serial for February, comes to us improved in appearance though even now we do not think the outside is up to the standard of its contents. The thousands who are familiar with Capt. Reid's popular books will only need to know that "Onward" is filled with his stories, written in his very best style. As the Captain is pretty well known in this city his friends will read his magazines with peculiar interest.

THE CHILDREN'S HOUR. A magazine for little ones, is edited by T. S. Arthur, and is a capital thing. We commend it to every household where the "little ones" abound.

THE HOUSEHOLD, published by Geo. E. Crowell at Brattleboro', Vt., at $1,00 a year is worth many times its cost to any family who will subscribe for and read it. We give a number of household recipes from its pages in the present number:

Cellars used for storage of fruits or vegetables should have as thorough ventilation as possible, compatible with safety from risk of injury by freezing. Very many apples are annually lost by rotting for want of attention to this necessity. Aside from the direct pecuniary loss sustained by such neglect, the effluvia arising from decaying vegetable matter in cellars is often the direct cause of malignant fevers.

WORK IN THE CELLAR.—Apples and potatoes can be picked over to a good advantage. No fruit or vegetables should be allowed to decay in the cellar, if for no other reason than the foul, poisonous air and gases which arise from them. We hear much complaint of frost bitten potatoes commencing to rot in the cellar. They should be picked out at once.

THE ORCHARD—should be looked after.—Mice will soon be at work under the snow. If you provided no protection for your young trees in the fall, you should now tread the snow solid around them where they stand in hollows or on the lee side of fences.

Fall River.

The News says the interest in St. Pauls Methodist Episcopal church is such that extra meetings are now held every evening.

Some bad boys have been breaking into candy shop windows and stealing the contents. The *News* thinks these lads had better go to the mission school instead of the reform school.

The operatives in the Merchants Mill have made a present of a silver set to A. H. Hartley the superintendent.

The Taunton Republican says the manufacture of locomotives is unusually brisk at both of the works in that city. Two large locomotives from the Union Pacific road were sent out for the Taunton Locomotive Works on Tuesday, and on Wednesday three first-class machines were sent from Mr. Mason's works, on being named the "William Mason." Mr. Mason has orders now on hand for over thirty locomotives, and turns out an average of one machine a week.

The Virtues of Borax.

The washerwomen of Holland and Belgium so proverbially clean, and who get up their linens so beautifully white, use refined BORAX as washing powder, instead of soda, in the proportion of a large handful of borax powder to about ten gallons of boiling water; they save in soap nearly half. All the large washing establishments adopt the same mode For laces, cambrics, etc., an extra quantity of the powder is used, and for crinolines, (requiring to be made stiff,) a strong solution is necessary. Borax being a neutral salt, does not in the slightest degree injure the texture of the linen; its effect is to soften the hardest water, and therefore it should be kept on the toilet table, To the taste it is rather sweet, is used for cleaning the hair is an excellent dentifrice, and in hot countries is used in combination with carbonic acid and bi-carbonate of soda as a cooling beverage.

CONGRESS.

WASHINGTON, Jan. 18.

Senate.

A memorial was presented praying that the naturalization laws be amended so that future frauds in elections may be prevented.

Mr. Morrill of Vermont presented the petition of Duncan, Sherman & Co., Dabney, Morgan & Co., E. D. Morgan & Co., and about 200 other merchants and business men of New York; also of Thomas Robins, Edward M. Lewis and James Patterson, Bank Presidents of Philadelphia and about 200 other merchants and business men of that city; E. A. Prestbrey, Enos Briggs & Co., B. K. Frothingham and about 100 other merchants and business men of Boston; and W. Coolbaugh, E. Hempstead, C. F. Wheeler and 100 other merchants and business men of Chicago praying for the enactment of a law reading that hereafter all purchase or sale of the loans and bonds of the United States shall be made by inviting public competition and thoroughly advertising for proposals and all sales of gold for account of the United States shall be made at public auction by an authorized official of the Treasury Department at a time and place duly advertised. Referred to the committee on finance.

Mr. Sumner presented a petition and remonstrance of the merchants of Boston against the Reciprocity Treaty.

House.

Several bills and resolutions were presented and referred, among them one by Mr. Poland of Vermont, providing for the issue of United States bonds, retiring United States notes and for a free system of national banking.

A bill was introduced and referred to the Post Office Committee for the construction of lines of telegraph between Boston, New York, Philadelphia, Baltimore and Washington, under the direction of the Post Office Department.

A bill proposing that where church property in the late rebellious states had been given to Africans, the trustees shall be elected by the congregation, was referred to the reconstruction committee.

A MOTHER'S WISDOM.—The following letter of advice was written, says the Concord *People* to a friend of ours, by his mother. We recommend it to other mother's sons, who are about starting out on life's stormy billows. These are good maxims, and we recommend them to all. The man who has a mother, that can write and feel as the author of this evidently does, is fortunate indeed.

TO MY DEAR SON.

The world estimates men by their success in life, and by general consent, permanent success is an evidence of superiority.

It will be safe for you to observe the following rules, which your affectionate mother prays God will strengthen you to do:

1—Base all your actions upon a principle of justice—preserve your integrity of character and in doing it, never reckon the cost.

2—Never under any circumstances, assume a responsibility you can avoid consistently with your duty to yourself, and others dependent on you. Or, in other words, "mind your own business."

3—Remember that self-interest is more likely to warp your judgement than all other circumstances combined; therefore look well to your duty, when your interest is concerned.

4—Never attempt to make money at the expense of your reputation, or dishonor will be the consequence.

5—Be neither lavish nor miserly; of the two avoid the latter. A mean man is universally despised, therefore generous feelings should be cultivated.

6—Avoid gambling of all kinds as a great evil—billiards, especially, because the most fascinating, therefore the most dangerous, the victim being enthralled before he is aware.

7—Always let your expenses be such as to leave a balance in your pocket. Ready money is always a friend in need.

8—Avoid borrowing and lending as far as possible.

9—Liquor drinking, smoking cigars, and chewing tobacco, are terrible habits to a young man; they impair the mind and pocket, and lead to a waste. They tend to lower a man; never elevate and lift him up in regard to the virtuous and good.

10—Be not in the habit of relating your misfortune to others, and never mourn over what you cannot prevent.

11—Let us see your good breeding, by showing due respect to age. Important Suffrage.

The following is the proposed amendment to the federal constitution as reported from the Senate Judiciary committee.

"ARTICLE 15. The right of citizens of the United States to vote and hold office shall not be denied or abridged by the United States or any State on account of race, color or previous condition of servitude."

That looks about right. It is to be regretted that any necessity exists for such an amendment. There ought to be democracy enough among democrats, and republicanism enough among republicans, to make suffrage and civil rights secure all over the country. Since it is not so, however, these important guarantees should be fixed in the fundamental law. The question has got to be settled one way or another, and in the long run it will be settled right. The nation had better do right at once, and have an end of the matter.

A YANKEE TRICK.—A Springfield real estate man recently did a sharp thing at the expense of the Hartford and New Haven railroad. With his wife and daughter he visited some friends as Windsor Locks, and being very anxious to return home by the owl (express) train, endeavored to induce the station agent to agree to stop it. Failing there, he telegraphed to the superintendent at Hartford, and received the reply that the train would stop at Windsor Locks for fifteen passengers. Quick as thought he bought fifteen tickets, and that fact being telegraphed to Hartford, he had the pleasure in due time of seeing the express train stop for his accommodation. "But where are your fifteen passengers?" said the conductor, as our Springfield friend and his two companions appeared to get aboard the train. "Why, you see," replied he, with a twinkle in his eye, "the others didn't come." Of course the conductor could not take up more than three tickets for three passengers and so the real estate man and his family were set down in Springfield for ordinary fare, just as they wanted to be. To be sure he has got a dozen tickets on hand, but there is nothing to prevent him from using them whenever he sees fit to do so.—*Republican.*

THE ALABAMA CLAIMS TREATY.

WASHINGTON, Jan. 18.

The statements about the provisions of the Alabama Claims treaty differ so wildly that it is impossible this morning to ascertain the exact truth.

One point not heretofore given is, that twelve months are allowed for the exchange of ratifications. This delay is taken as an indication that our Secretary of State and Lord Clarendon have very little faith in the chances of their Convention before the Senate.

A partial canvass of the Senate sustains this opinion. Five of the seven members of the Committee on Foreign Relations are known to be opposed to the treaty.

This would ensure its defeat when brought by the committee to the Senate for action.

There is reason to believe that the treaty will be rejected within ten days.

GREAT BRITAIN.

LONDON, Jan. 18.

The gratifying intelligence of the safe landing of the captain and crew of the British ship Southern Empire was received to-day. The first report of the disaster to this vessel, published on the 6th instant, stated that she foundered while on a voyage from New Orleans to Liverpool and that all hands were lost.

The *Times* alludes in terms of the highest praise to the treaty which has been concluded between Great Britain and China, through Mr. Burlingame.

The following is a extract from a private letter written by the proprietors of the Plantation Bitters:

We now find that every house has a weak child, an ailing parent, or debilitated aged member, who needs this tonic. Our Labatory has grown from a single room to an immense building, and our sale from a few bottles to many hundred dozens per day, and we are glad to know that they have done you so much good."

"A Little Bilious."

How often this is the response to the enquiry after a friend's health as if to be bilious was a trifling matter, hardly worth thinking about. But let it be remembered that, as "tall oaks from little acorns grow," so formidable diseases arise from being "a little bilious."

Severe bilious attacks are more common in Spring, Summer and Autumn than in Winter, but the serious disorders of the liver which so often occur at those seasons, might be traced, in hundreds of instances, to Winter indulgences and their neglected consequences. More highly-seasoned food in excess, more deep drinks imbibed, in cold than in warm weather, and thus the biliousness is produced which, under a warmer temperature, culminates in remittent and intermittent fevers.

The very best medicine for persons who are either a *little* or a *good deal* bilious, is HOSTETTER'S STOMACH BITTERS. No blue-pill or calomel is required in such cases. These powerful mineral medicines cut two ways, like a double-edged sword. They act, it is true, upon the liver, but re-act most deleteriously on other parts of the system. They "salivate" there, and cannot be got rid of. The Bitters contain vegetable agents of an anti-bilious tendency, that produce a specific and most genial effect upon the biliary organ, without entailing any evil consequences whatever. They are *altogether unobjectionable*, and act favorably and simultaneously upon the stomach, the liver, the bowels, the nervous system, and the brain.

Oxygenized Air,

For the Cure of Chronic Diseases.

Drs. LEE & MOULTON,

Continue to give their personal attention to the treatment of all diseases of the Blood and Air Passages.

The Oxygen is breathed directly into the Lungs and through them is carried into the blood; thus, as soon as the blood will carry it, it reaches all parts of the system, decomposing the impure matter in the blood and expelling it through the pores.

The following are a few of the many testimonials which DRS. LEE & MOULTON are daily receiving from their numerous patients in the city and country.

ESTIMONIALS.

PROVIDENCE, JAN. 10, 1868.

L. M. LEE, M. D.—Dear Sir,—From a feeling of gratitude to you for my present state of health, I am induced to write you a few lines, which you are at liberty to use publicly.

For a long time previous to consulting you I had suffered exceedingly from Catarrah and Bronchial difficulties. By following your treatment the above difficulties were removed—my circulation was better and in fact my general health was very much benefited. It has now been more than six months since I was under your treatment, and its effects have been lasting, and I can cheerfully recommend it to all who are similarly afflicted.

Respectfully yours,
MRS. G. T. SWARTS,
Cor. Pine and Sheraton Sts.

Letter from Rev. Geo. F. Walker.

LITTLE COMPTON, R. I., Oct. 16, 1867.

Drs. Lee & Moulton, 199 Westminster St.:

Dear Sirs:—Having some years since succeeded in raising a man from apparent death to life by the use of oxygen gas, introduced into the lungs by artificial respiration—when I read the advertisement of the new remedy for disease of the lungs, &c., which you apply, I became at once interested in it, and at my first opportunity made trial of it for the relief of a chronic trouble in my throat and bronchia. Its effects upon me was wonderful and almost instantaneous. I had inhaled it but a few times before there was a very perceptible improvement in the strength of my vocal organs; and it as quickly removed all traces of a severe cold which had been resisting the power of common cough medicine for several weeks. It has been now some three months since I have inhaled the Oxygenized Air more than once or twice, yet its effects continue, enabling me to speak with more ease to myself and more acceptance to my hearers. I consider the remedy truly pulmonic, and one which commends itself to the afflicted, and if my advice could be heard and heeded, any one who has the symptoms of any serious trouble in the throat or lungs, or even a bad cold, could neglect to try it. Trusting you may have the opportunity, as I believe that, in the use of the "Oxygenized Air," you have the ability—to ward from many the shafts of a premature death.

I am yours truly,
GEO. F. WALKER,
Pastor of the United Congregational Church and Society.

Catarrh and Bronchitis, and Consumption with Hemorrhage.

L. M. LEE, M. D.—Dear Sir,—Since the date of my former note, I have continued the occasional use of your remedies for Catarrh and Bronchitis, until I now am happy to consider myself not merely relieved, but about cured, especially of the troublesome throat affection, from which I had suffered so much, for more than fifteen years. And I now feel prepared to recommend your mode of treatment to all who are suffering from similar complaints.

My wife has also derived much benefit from the use of your inhalents, finding them especially useful in the prevention of hemorrhage from the lungs.

Very respectfully, yours,
J. LIVESEY.

HOOFLAND'S GERMAN BITTERS,

AND

HOOFLAND'S GERMAN TONIC,

Prepared by Dr. C. M. Jackson, Philadelphia. Their introduction into this country from Germany occurred in

1825,

THEY CURED YOUR

FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now sold in this country as Tonics. They are no tavern preparation, or anything like one; but good, honest, reliable medicines. They are

The greatest known remedies for

Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,

and all Diseases arising from a Disordered Liver, Stomach, or

IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

All these indicate disease of the Liver or Digestive Organs, combined with impure blood.

Hoofland's German Bitters

Is entirely vegetable, and contains no Liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made are gathered in Germany. All the medicinal virtues are extracted from them by a scientific chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

Hoofland's German Tonic

is a combination of all the ingredients of the Bitters, with pure Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in cases where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.

DEBILITY,

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the pallid face to a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These Remedies are the best

Blood Purifiers

ever known, and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order; keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no disease will ever assail you. The best says in the country recommend them. If years of honest reputation go for anything you must try these preparations.

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.

PHILADELPHIA, March 15, 1867.

I find "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action, in the system.

Yours truly,
GEO. W. WOODWARD.

FROM HON. JAMES THOMPSON,

Judge of the Supreme Court of Pennsylvania.

PHILADELPHIA, April 24, 1868.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect,
JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—DEAR SIR:—*I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system and especially for Liver Complaint, it is a valuable and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial in those who suffer from the above causes.*

Yours, very respectfully,
J. H. KENNARD,
Eighth, below Coates street.

Schenck's Pulmonic Syrup,
Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of Pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond Street, New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. G. C. GOODWIN & CO., 38 Hanover St., Boston, Wholesale agents. For sale by all druggists. jan4—1y sn

FRANKLIN MUTUAL FIRE INSURANCE CO.,
NO. 8 MARKET SQUARE, Prov., R. I.
INSURES FIRST-CLASS DWELLINGS AND CONTENTS ONLY.
AMOUNT AT RISK, $4,500,000.

The object of a Mutual Company is to furnish insurance to its policy holders at the actual cost, and the main thing to be considered is, what conditions are most favorable to make the actual cost as near nothing as possible. This Company will insure nothing but Dwellings and Household Furniture, which experience has shown to be the SAFEST OF ALL INSURANCE RISKS, thus putting the liability of losses at the LOWEST POSSIBLE STANDARD. The premium charged is sufficient to cover all probable losses and expenses during the term for which the policies are issued, thus avoiding the necessity of assessments, which are always *dissatisfactory and expensive*. The insured receive all the profits,—every dollar, after deducting the necessary expenses, being invested for their benefit, and returned to them at the expiration of their policies, thus offering one of the safest and cheapest systems of insurance.

Newport, Jan. 6, 1869.

THE
Union Pacific
RAILROAD COMPANY
OFFER A LIMITED AMOUNT OF THEIR
FIRST MORTGAGE BONDS
AT PAR.

Nine Hundred and Sixty Miles of the line West from Omaha are now completed, and the work is going on through the Winter. As the distance between the finished portion of the Union and Central Pacific Railroads is now less than 400 miles, and both companies are pushing forward the work with great energy, employing over 30,000 men, there can be no doubt that the whole

Grand Line to the Pacific
Will be open for Business in the Summer of 1869.

The regular Government Commissioners have pronounced the Union Pacific Railroad to be FIRST CLASS in every respect, and the Special Commission appointed by the President says:

"Taken as a whole, THE UNION PACIFIC RAILROAD HAS BEEN WELL CONSTRUCTED, AND THE GENERAL ROUTE FOR THE LINE EXCEEDINGLY WELL SELECTED. The energy and perseverance with which the work has been urged forward, and the rapidity with which it has been executed are without parallel in history, and in grandeur and magnitude of undertaking it has never been equalled." The Report states that any deficiencies that exist are only those incident to all new roads, and that could not have been avoided without materially retarding the progress of the great work. Such deficiencies are supplied by all railroad companies after the completion of the line, when and wherever experience shows them to be necessary. The report concludes by saying that "the country has reason to congratulate itself that this great work of national importance is so rapidly approaching completion under such favorable auspices." The Company now have in use 127 locomotives and nearly 2,000 cars of all descriptions. A large additional equipment is ordered to be ready in the Spring. The grading is nearly completed, and ties distributed for 120 miles in advance of the western end of the track. Fully 120 miles of iron for new track are now delivered west of the Missouri River, and 90 miles more are *en route*. The total expenditures for construction purposes in advance of the completed portion of the road is not less than eight million dollars.

Besides a donation from the Government of 12,800 acres of land per mile, the Company is entitled to a subsidy in U. S. Bonds on its line as completed and accepted, at the average rate of about $29,000 per mile, according to the difficulties encountered, for which the Government takes a second lien as security. The Company have already receive [illegible] of this subsidy, of which [illegible] was paid Dec. 6th, and $840,000 Dec. 15th.

Government Aid—Security of the Bonds.
By its charter, the Company is permitted to issue its own FIRST MORTGAGE BONDS to the same amount as the Government Bonds, and no more.—These Bonds are a First Mortgage upon the whole road and all its equipments. Such a mortgage upon what, for a long time, will be the only railroad connecting the Atlantic and Pacific States, takes the highest rank as a safe security. The earnings from the way or local business for the year ending June 30, 1868, on an average of 472 miles, were over FOUR MILLION DOLLARS, which, after paying all expenses, were much more than sufficient to cover all interest liability upon that distance, and the earnings for the last five months have been $2,386,870. They would have been greater, if the road had not been taxed to its utmost capacity to transport its own materials for construction. The income from the great passenger travel, the China freights, and the supplies for the new Rocky Mountain States and Territories must be ample for all interest and other liabilities.—No political action can reduce the rate of interest. It must remain for thirty years—*six per cent. per annum in gold*, now equal to between eight and nine per cent. in currency. *The principal is then payable in gold.* If a bond with such guarantees were issued by the Government, its market price would not be less than from 20 to 25 per cent. premium. As these bonds are issued under Government authority and supervision, upon what is very largely a Government work, they must ultimately approach Government prices. No other corporate bonds are made so secure.

The price for the present is PAR, and accrued interest at 6 per cent. from July 1, 1868, in currency.

Subscriptions will be received in Newport by HENRY BULL & CO; NATIONAL EXCHANGE BANK, Newport; NEWPORT NATIONAL BANK; and in New York
At the Company's Office, No. 20 Nassau Street,
AND BY
John J. Cisco & Son, Bankers, No. 59 Wall Street,
And by the Company's advertised agents throughout the United States.

Bonds sent free, but parties subscribing through local agents, will look to them for their safe delivery.

A NEW PAMPHLET AND MAP WAS ISSUED Oct. 1st, containing a report of the progress of the work to that date, and a more complete statement in relation to the value of the bonds than can be given in an advertisement, which will be sent free on application at the Company's Offices or to any of the advertised agents.

☞ The Coupons of the First Mortgage Bonds of the Union Pacific Railroad Company, due January 1st, 1869, will be paid on and after that date, in Gold Coin, free of Government tax, at the Company's office, No. 20 Nassau street, New York.

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet Music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming advertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for years), of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and *first-class instrument*. Stronger endorsement we could not give.—*Home Journal.*

BOOTS AND SHOES.

ZEPHYR OVERSHOE.

PATENT APPLIED FOR.

THE utility, cleanliness, and comfort of the overshoe for Winter wear, has demonstrated the necessity of an article suitable for the damp or wet days of the other seasons of the year, when the ordinary overshoe produces discomfort from its weight, warmth, and non ventilation.
The ZEPHYR OVERSHOE now offered for public patronage, combines the following characteristics:
They are thoroughly water-proof, both sole and upper, which can be tested by filling them with water to the very top, without leaking a particle.
The upper is made of a peculiar cloth, which, although resisting water, yet can be breathed through freely, thus permitting the escape of insensible perspiration, and rendering them cool to the foot on the hottest day.
The lining made of a patented material, being partially elastic, keeps the shoe snug to the foot, avoiding that disagreeable slipping at the heel, and gaping at the quarter, common to the ordinary sandal now in use.
A pair weighs but four ounces, occupies when folded a very small space, and can be carried, when not in use, in the pocket or reticule. For sale at
SEABURY'S Shoe Store,
nov21 134 Thames Street.

You can insure your house in the QUINCY MUTUAL INSURANCE COMPANY, without extra cost for the Carpenter's risk, from the day that the building is raised. This is a great saving, as the builders' risk is usually quite an item. The QUINCY has more than $200,000 cash surplus on hand, from the savings of which it has paid a cash dividend of 40 per cent. on every five years policy for a long time. This is better than an assessment every year or two. Rates no higher than in other sound Companies. L. D. DAVIS, Agent.
